OFFICIAL SYSTEM DOCUMENTATION • AY 2025-2026

NexSchool ERP Enterprise User Guide

A complete, step-by-step operations manual for Administrators, Principals, Teachers, Accountants, Admission Officers, and School Clerks.

SYSTEM VERSION	TARGET AUDIENCE	EFFECTIVE ACADEMIC YEAR
v2.4 Enterprise	**All School Staff & Roles**	**2025 – 2026**

Table of Contents

This user guide is structured by module and role responsibility. Use this index to quickly locate setup procedures, daily operational tasks, or feature walkthroughs.

1. System Overview, Login & Interface Navigation — Page 2
2. User Roles, Access Hierarchy & Permissions (RBAC) — Page 3
3. School Setup & Academic Configuration — Page 4
4. Student Lifecycle: Directory, Profiles & Bulk Import — Page 5
5. Ingesting Past Academic Years (2024-25, 2023-24) — Page 6
6. Academics, Class Timetable & Daily Homework — Page 7
7. Examinations, Grading System & Report Cards — Page 8
8. Accounts & Fees: Structures, Billing & Collection — Page 9
9. Staff & HR: Teacher Appointment, Attendance & Payroll — Page 10
10. Admissions & CRM: Inquiries & Enrollments — Page 11
11. School Operations: Library, Transport, Clinic & IT — Page 12
12. Campus Facilities: Security Gate, Canteen & Hygiene — Page 13
13. Student & Parent Self-Service Portals — Page 14
14. Campus Notices, Security Audit & Password Management — Page 15

1. System Overview & Navigation

NexSchool ERP is an all-in-one School Management System built to unify every school operation—from admissions and classroom academics to financial accounting, transportation, and campus security.

1.1 Accessing the Application & Logging In

Step 1: Open Application in Web Browser

Navigate to your school's private ERP link (e.g. `http://localhost:5173` or your custom domain). The system supports Chrome, Edge, Safari, and Firefox across Windows, macOS, iPads, and Android tablets.

Step 2: Enter Authorized Credentials

Enter your assigned **Username** (e.g. `admin` or your staff ID) and confidential **Password**. Click **Sign In**. Upon verification, you will be redirected to your personalized role-based dashboard.

1.2 Topbar Command Center & Key Features

- **Global Command-K Search (Ctrl+K):** Press `Ctrl+K` (or `Cmd+K` on Mac) from any page to activate real-time search across all students, staff, admission applicants, library books, and IT tickets.
- **Dynamic Academic Session Switcher:** Located on the top-right (e.g. `AY: 2025-2026`). Click the dropdown to review available academic years or switch the system view.
- **Live Notifications:** Click the bell icon to review instant alerts for fee overdue warnings, admission inquiries, or pending IT tickets.
- **User Profile & Password Menu:** Click your avatar on the top right to access your profile or change your account password.

> **PRO TIP**
> You can quickly navigate between modules without using the mouse by pressing **Ctrl+K** and typing keywords like "*fees*", "*students*", "*timetable*", or "*bus*".

2. User Roles, Access Hierarchy & Permissions (RBAC)

The ERP protects confidential school data using strict **Role-Based Access Control (RBAC)**. Users only see the sidebar links and actions authorized for their role.

2.1 The 16 Built-in System Roles

ROLE CODE	DISPLAY TITLE	HIERARCHY	PRIMARY RESPONSIBILITIES
`SUPER_ADMIN`	Super Administrator	Level 0	Global root access, school setup, DB management, role definition.
`PRINCIPAL`	School Principal	Level 1	Executive academic oversight, staff reviews, report card approvals.
`ADMINISTRATOR`	School Administrator	Level 2	Day-to-day operations, student enrollments, timetable scheduling.
`TEACHER`	Teacher / Faculty	Level 5	Class attendance, daily homework, exam marks entry, lesson plans.
`ACCOUNTANT`	Finance Manager	Level 5	Fee collection at counter, invoices, payment receipts, payroll.
`ADMISSION_OFFICER`	Admission Officer	Level 5	Lead inquiry intake, application processing, admission approval.
`CLERK`	Office / Front Desk Clerk	Level 6	Student records, inquiries intake, fee billing, gate passes.
`LIBRARIAN`	Head Librarian	Level 5	Book inventory, issue/return transactions, fine assessments.
`TRANSPORT_MGR`	Transport Manager	Level 5	Bus fleet management, route stops, driver contact allocations.
`NURSE`	School Nurse	Level 5	Student medical history, infirmary visits, first aid inventory.
`SECURITY`	Security Guard	Level 6	Visitor badges, campus gate log, student early pickup passes.
`PARENT`	Parent / Guardian	Level 8	Multi-child portal, view attendance, pay fees online, report cards.

ROLE CODE	DISPLAY TITLE	HIERARCHY	PRIMARY RESPONSIBILITIES
STUDENT	Enrolled Student	Level 9	Timetable periods, homework deadlines, attendance 75% alerts.

2.2 Managing Roles in the RBAC Console (`/rbac`)

Super Admins can open **Roles & RBAC** from the sidebar to:

- **Create Custom Roles:** Define unique school roles (e.g. *Exam Controller* or *Lab Technician*).
- **Configure Granular Permissions:** Turn on or off individual rights across 74 permissions (e.g. allow a clerk to view students but not delete them).
- **User Accounts Tab:** Provision staff credentials, set initial passwords, and change assigned roles.

3. School Setup & Academic Configuration

Before enrolling students or scheduling classes, Administrators configure the institutional master data in **School Setup** (`/admin`).

3.1 Academic Sessions Management

The academic session dictates the active operating year. You can have multiple sessions in the database:

- **Active Current Session:** Only one session can have `isCurrent: true` (e.g. **2025–2026**). All new admissions default here.
- **Completed Sessions:** Archived past sessions (e.g. **2024–2025**, **2023–2024**) preserved for transcripts and historical auditing.
- **Upcoming Sessions:** Future academic years opened early for advance admissions.

3.2 Step-by-Step Setup Hierarchy

1. Create Classes & Grades (e.g. Nursery, Grade 1 to 12)

Go to **School Setup** → **Classes** → Click *Add Class*. Enter Name (e.g. `Grade 10`) and numeric order.

2. Create Class Sections (e.g. Section A, Section B)

Go to **School Setup** → **Sections** → Link to the class, assign room number, and set student capacity (e.g. 40 seats).

3. Define Curriculum Subjects

Go to **School Setup** → **Subjects** → Enter Subject Name (e.g. *Mathematics, English, Physics*), subject code, and academic credits.

4. Setup Departments & Designations

Create organizational departments (*Academics, Administration, Accounts, Sports*) and designations (*Senior Teacher, Accountant, HOD*).

4. Student Management & Ingesting Past Years

The **Student Directory** (`/students`) is the central repository of all student records, academic placements, and parent linkages.

4.1 Enrolling a Student (3-Step Wizard)

1. **Step 1: Personal Information:** First Name, Last Name, Date of Birth, Gender, Blood Group, and Student Contact.
2. **Step 2: Academic Placement:** Select Academic Session (Current or Past), assign Class, Section, and unique Roll Number.
3. **Step 3: Guardian Details:** Enter Father and Mother contact info. The system automatically creates a linked Parent Profile.

4.2 Ingesting Past Academic Year Records (2024-25, 2023-24)

To store historical student data in your ERP for alumni tracking and compliance, use the **Bulk Import CSV** feature:

Step 1: Verify Past Session in School Setup

Ensure the past session (e.g. `2024-2025`) is created in **School Setup** with status `Completed`.

Step 2: Open Bulk Import in Student Directory

Navigate to **Student Directory** → Click **Bulk Import CSV** button in the top action bar.

Step 3: Choose Target Year & Paste CSV Rows

Select Target Academic Year (`2024-2025`), Class, and Section. Paste your CSV rows with headers:

```
firstName,lastName,gender,dateOfBirth,rollNumber,phone,fatherName,motherName
Aarav,Sharma,Male,2010-04-12,1,9876543210,Rajesh Sharma,Sunita Sharma
Priya,Verma,Female,2010-08-20,2,9876543211,Manoj Verma,Kavita Verma
```

Step 4: Click Start Import

The ERP automatically generates student IDs, admission numbers, links parent profiles, and tags records under 2024-2025.

4.3 Filtering Students by Academic Year

In the Student Directory filter bar, select the **Academic Year dropdown** (e.g. choose `2024-2025`) to instantly isolate past student batches from current 2025-2026 students.

5. Academics, Timetable & Examinations

5.1 Weekly Class Timetable (`/academics`)

The Timetable module schedules weekly periods across Monday through Saturday:

- Select the target Class & Section (e.g. Grade 10 - Section A).
- For each period (Period 1 to Period 8), assign the **Subject**, **Faculty Teacher**, **Room Number**, and **Timing**.
- The system automatically detects teacher scheduling conflicts (prevents double-booking a teacher at the same period).

5.2 Daily Homework & Assignment Workflow

- **Creating Homework:** Teachers click *Assign Homework*, select Class, Subject, Title, Instructions, and Submission Due Date.
- **Student View:** Instantly appears in the Student and Parent Portals with pending countdown alerts.
- **Evaluation:** Teachers review submissions and mark status as *Submitted, Graded,* or *Late*.

5.3 Examinations & Report Card Generation

WORKFLOW STAGE	RESPONSIBLE ROLE	ACTION REQUIRED
1. Schedule Exam	Principal / Administrator	Create Term Exam (e.g. *Mid-Term 2025*), dates, maximum marks.
2. Enter Marks	Subject Teachers	Enter marks obtained by each student across subjects.
3. Compute GPA	System Automatic	Calculates percentage, GPA, grade (A+, A, B, etc.), and class rank.
4. Publish Cards	Principal Approval	Release report cards. Students and parents can download PDF report cards.

6. Accounts, Fees & Financial Ledgers

The **Accounts & Fees** module (`/finance`) automates the school fee collection cycle and prevents revenue leakage.

6.1 Setting Up Fee Structures

Fee structures can be configured on an annual, term, or monthly basis:

- **Tuition Fee:** Core educational fee customized by Grade level.
- **Transport Fee:** Distance/route-based fee auto-linked to bus allocation.
- **Admission & Lab Fees:** One-time onboarding charges.

6.2 Collecting Fees at the Counter (Accounts Clerk Walkthrough)

Step 1: Locate Student Fee Ledger

In **Accounts & Fees** → **Student Fee Records**, search for the student using Student ID, Admission No, or Name.

Step 2: Select Invoice & Enter Payment Amount

Click **Collect Payment** on the pending invoice. Enter amount paid, select payment mode (*Cash, Card, UPI, Cheque, Bank Transfer*), and enter transaction reference.

Step 3: Generate Computerized Receipt

Click **Confirm & Generate Receipt**. The system records the payment into the ledger, updates the balance, and provides an official printable receipt.

6.3 Expense Logging & Daily Collections Report

Finance managers can record operational expenses (e.g. electricity, lab equipment, maintenance) and export daily collection summaries to CSV for bank reconciliations.

7. Staff & HR Management (`/staff`)

Manages the school's faculty and administrative staff throughout their employment lifecycle.

7.1 Staff Directory & Appointing New Teachers

- Click **Add Employee** to record full biographical, contact, qualification, and salary details.
- Assign **Department** (e.g. *Science Department*) and **Designation** (e.g. *Senior Teacher*).
- **Provisioning Login Credentials:** Go to **Roles & RBAC** → **User Accounts** and create a login account for the teacher with role `TEACHER`.

7.2 Staff Attendance & Leave Approvals

Staff clock in daily. When a teacher requests sick leave or casual leave, it appears on the Principal's dashboard for one-click approval or rejection.

> ### 8. Admissions & Candidate CRM (`/admissions`)

Automates the new student intake pipeline from initial inquiry to final enrollment:

1. **Inquiry Intake:** Register walk-in or telephone parent inquiries.
2. **Application Review:** Process candidate admission forms, entrance assessment scores, and past school transfer certificates (TC).
3. **One-Click Student Conversion:** Upon approval, click "*Convert to Enrolled Student*". The system automatically creates their official student record and parent account!

9. Operations & Campus Logistics

9.1 Library Management (`/library`)

- **Catalog Management:** Add books by Title, Author, ISBN, Publisher, and Category.
- **Issue / Return Circulation:** Scan Student ID and Book barcode to issue loans. The system tracks due dates and calculates late return fines automatically.

9.2 Transport Logistics & Bus Fleet (`/transport`)

- **Vehicles:** Manage school buses, seating capacities, vehicle insurance, and GPS tracker tags.
- **Routes & Stops:** Define morning/evening routes with precise pickup stops and designated pickup times.
- **Student Allocation:** Assign students to specific routes and stops. The route details appear in their Student and Parent Portals.

9.3 Medical Room & Health Clinic (`/medical`)

- Maintain confidential student health profiles, known allergies, blood groups, and chronic conditions.
- Log daily infirmary visits, symptoms treated, first aid provided, and track clinic medicine stock levels.

9.4 Campus Gate, Security & Visitor Management (`/security`)

- **Visitor Passes:** Issue computerized visitor entry badges with visitor photo, phone number, and purpose of visit.
- **Gate Passes:** Log early student pick-up passes authorized by parents.
- **Incident Reporting:** Maintain security incident logs and perimeter inspection checklists.

10. Student & Parent Portals & Security

10.1 Student Self-Service Portal (`/portal/student`)

Provides students with a dedicated personal dashboard:

- **Today's Timetable:** Real-time view of daily periods, subjects, teachers, and classroom numbers.
- **Pending Homework:** Active assignments, homework instructions, and submission deadlines.
- **75% Attendance Rule Alert:** Automatic warning banner if attendance drops below the 75% exam threshold.
- **Fee Balances:** View tuition fees and invoice statuses.
- **Admin Live Simulation:** Admins can inspect the portal in *Admin Preview Mode* with the **Switch Student** dropdown.

10.2 Parent Multi-Child Portal (`/portal/parent`)

- **Sibling Switcher:** Parents with multiple enrolled children can switch between children with one click.
- **Online Fee Payments:** Review fee invoice breakdowns and simulate/pay fees online.
- **Report Cards & Attendance:** Track daily attendance and exam progress.

10.3 Password Management & System Security

Changing Your Password

Click your user profile avatar in the topbar → Click **Change Password** → Enter your current password and your new secure password (minimum 6 characters).

Audit Logs & Forensic Trail (`/audit-logs`)

Super Admins and Principals can review timestamped logs of every login, student enrollment, fee collection, and role change for security audits.

> **SUPPORT & ASSISTANCE**
> For technical assistance, system upgrades, or database backups, contact the School IT Helpdesk administrator or submit an internal ticket via **IT Assets & Helpdesk (`/it`)**.
